

Git Assignment 3: Feature Branches and Hotfixes. Create a 'hotfix' branch to fix an issue in the main code. Merge the 'hotfix' branch into 'main' ensuring that the issue is resolved.has context menu

# Switch to the main branch

```
git checkout main
```

# Create and switch to the hotfix branch

```
git checkout -b hotfix
```

# Edit the example.txt file to fix the issue

# Stage the changes

```
git add example.txt
```

# Commit the changes

```
git commit -m "Fixed a critical issue in the main code"
```

# Switch back to the main branch

```
git checkout main
```

# Merge the hotfix branch into main

```
git merge hotfix
```

# Optionally, delete the hotfix branch

```
git branch -d hotfix
```
