

Assignment 1: Ensure the script checks if a specific file (e.g., myfile.txt) exists in the current directory. If it exists, print "File exists", otherwise print "File not found".

```
# File name to check
```

```
file="nyn.txt"
```

```
# Check if the file exists
```

```
if [ -e "$file" ]; then
```

```
    echo "File exists"
```

```
else
```

```
    echo "File not found"
```

```
fi
```
